

A Bright Idea: Positive Learning Environment

You can set your child up for success at school by making learning language fun. It's easy to develop a positive learning environment at home. Here are some great ways to get started.

Give children letters and have them place the letter on the corresponding objects in the home. (e.g. give them the letter "B" to place on the bed, on a bun, on a button etc.)

Encourage your children to describe unique features about their toys such as "That's a long, green snake with stripes. I like long, green snakes."

Doing puzzles and assembling toys is another great way to help develop problem solving skills.

Overall, be patient, and keep it fun!
